

SMALL BUSINESS GRANTS AVAILABLE NOW

Since 2018, Community Led Local Development (CLLD) has invested nearly £9 million in EU Funding to more than 150 businesses and organisations across Cornwall, helping them deliver real economic benefits.

If you are a business in one of our target areas of South and East Cornwall speak to us about our Small Grant opportunities.

These grants allow eligible local businesses to access funding of up to £10,000* to enable them to grow and offer more employment opportunities.

We've listed some eligible costs below...

Marketing Support

Purchase of specialist consultancy to support your marketing campaigns and branding.

Capital Expenditure

Help towards the cost of equipment for your business e.g. computers, laptops and office equipment.

Business Support

Specialist Business Support to help you grow, increase efficiency, and expand into new markets.

New Websites

Investment in new websites and additional functionality e.g. E-Commerce. Helping you expand your customer base and increase efficiency with online orders & bookings.

These grants are from our remaining European Regional Development Fund (ERDF) so they won't be around forever, especially as we approve more and more projects.

Please note that certain types of businesses are unfortunately ineligible and there is also a geographic focus on particular postcodes within the area, so we highly recommend that you email Ffion Stanton to discuss these opportunities and ascertain eligibility.

**You will be expected to match fund a minimum of 28% towards the project cost*
